Professional Summary

Data Analyst with hands-on experience in Python, SQL, Power BI, and Excel, specializing in data cleaning, exploratory data analysis, KPI reporting, customer segmentation, and dashboard development. Experienced in transforming large datasets into actionable business insights through analytical projects and industry internship experience.

Technical Skills

- **Languages & Databases:** SQL (PostgreSQL, MySQL), Python (Pandas, NumPy), Joins, CTEs, Window Functions, Subqueries, Aggregations
- **Data Analysis & Visualization:** Power BI, DAX, Power Query, Data Modeling, Matplotlib, Seaborn, MS Excel (Pivot Tables, Lookup Functions)
- **Tools & Platforms:** Jupyter Notebook, VS Code, Git/GitHub, Scikit-learn basics
- **Core Competencies:** Data Cleaning & Wrangling, Exploratory Data Analysis (EDA), RFM & Customer Segmentation, Statistical Analysis, KPI Reporting, Dashboard Design, Data Storytelling, Stakeholder Communication

Work Experience

Data Analyst Intern – Alfido Tech

Aug 2026-Sep 2026

- Spearheaded end-to-end data pipelines across 2 multi-variable business datasets, standardizing raw files to improve reporting consistency and data reliability.
- Cleaned, transformed, and validated 50,000+ unstructured records using Python (Pandas, NumPy), cutting manual data preprocessing overhead.
- Built 2+ interactive Power BI dashboards monitoring core KPIs across sales performance, customer engagement, and web metrics to support stakeholder decision-making.

Projects

[Customer Behavior & RFM Segmentation Analysis](#) | Python, Pandas, NumPy, Matplotlib, Seaborn

- Analyzed **50K customers, 250K orders, and 681M revenue** using Python, Pandas, and NumPy to identify purchasing patterns, category-level behavior, and a **20.0% churn rate**.
- Applied **RFM (Recency, Frequency, Monetary) segmentation** to identify high-value and at-risk customer groups, supporting targeted retention and marketing strategies

[Sales Performance Analysis \(Superstore Dataset\)](#) | Python, Pandas, Matplotlib, Seaborn, Power BI

- Analyzed **\$2.26M total sales and \$226.2K total profit**, achieving a **10.0% profit margin** and **\$459.48 average order value**, while identifying the **West region as the top performer (\$0.71M sales, \$71K profit)**.
- Built an interactive **Power BI dashboard** to analyze **regional and category performance, profit trends, sales by state, and top-performing products**, supporting data-driven business decisions.

Education

Bachelor of Technology in Artificial Intelligence & Data Science

IIMT College of Engineering | 2023-2027

Current CGPA : 7.0/10

Certifications

- [Python Programming – Infosys Springboard](#) 
- [Data Analytics – Coursera](#) 
- [SQL Foundations – Coursera](#) 
- [Machine Learning – IBM](#) 
- [Advanced Internet of Things\(IOT\) – IIMT College of engineering](#)
